## TECHNICAL GUIDE NOTICE NO. 407

This notice transmits the following revised conservation practices and the list of resource concerns and tools for Kentucky.

### SECTION III

Revised - **National and State Resource Concerns & Planning Criteria** – This document outlines the state and national and resource concerns with regard to Soil, Water, Plants, Animals, Air and Energy and the approved tools to evaluate those concerns.

### SECTION IV

#### Conservation Practices

Revised - **Nutrient Management (590)** – Minor revisions to 1) add considerations for applications in karst areas and 2) clarify the language regarding phosphorous risk assessment under Additional Criteria Applicable to Properly Utilize Manure or Organic By-Products as a Plant Nutrient Source.

Revised-**Critical Area Planting (342)**-Revised to delete reference to University of Kentucky Extension publication, AGR-40, Lime and Fertilizer Recommendations for Reclamation of Surface-Mined Coal Spoils which was found under Additional Criteria to Rehabilitate and Revegetate Degraded Sites that Cannot Be Stabilized through Normal Farming Practices. This publication has been archived by Extension.

#### Tools

Revised-**Kentucky Pasture Conditioning ScoreSheet**-revised to add gully and streambank assessment.

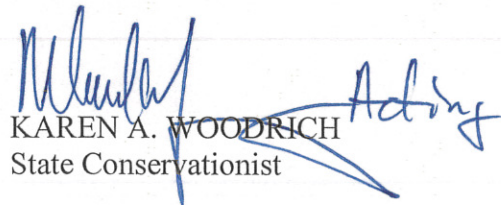

### ARCHIVED

**Nutrient Management (590)** -January 2013

**Critical Area Planting (342)**-February 2015

### ACTION

Access the FOTG and download the documents as needed. Discontinue use of Archived material. These documents go into effect upon receipt of this notice. The documents have been reviewed and approved for posting to FOTG in Sections III and IV respectively by Mark Ferguson, State Resource Conservationist.
